

## Premium Disc Cutting Kit

**Product No.** 251405

Pepetools Premium Disc Cutter Kit is newly improved version of the worlds best selling disc cutter. Engineered to the industries tightest tolerances, this product is built to last a lifetime. Precision machined from hardened steel, each plate is ground to perfection.

Features exclusive to Pepetools include:

- Punch clearing design – Allows the punch to completely clear the die.
- Punches with 7° cutting angles – Applies a sheering action that reduces cutting stresses and produces much cleaner cut-outs.
- Material hold down feature - Restricting the movement of the material being cut, by firmly holding it in-place. The easy open & close height adjusting knob, is low profile - will not interfere with your work, when using mallet, hammer or a hydraulic press.
- Organising base - Machined from aluminium and powder coated to maintain a durable finish. (2016 Models machined in USA from HDPE) Laser engraved for easy punch identification.

Sizes:

- Laser Engraved: On disc cutter in MM & IN
